

PROTOCOLS PRESCRIBED BY THE ORDRE PROFESSIONNEL DE LA PHYSIOTHERAPIE DU QUEBEC
ACCORDING TO THE STANDARDS DICTATED BY THE CNESST

1. In order to be seen in the clinic, you must confirm that:

- You do not have one or more of the following signs: fever, cough, difficulty breathing, diarrhea, loss of taste or smell.
- You have not had a positive COVID-19 test in the past month ago or you are not waiting for a test result.
- You have not been in close contact with a confirmed or probable COVID-19 case in the past 14 days

2. (For healthcare workers)

If the patient is working in the healthcare sector and has been in close contact with a confirmed or probable case of COVID-19 in the past 14 days, the following rules apply:

- If the patient was not wearing the appropriate PPE during this contact: even if he is asymptomatic, he should not come to the clinic
- If the patient wore the appropriate PPE during this contact: he can come to the clinic.

3. You will need to wear a face-cover the entire time that you are at the clinic. If you have one, bring it, otherwise we will provide one for you.

4. Come alone. An accompanying person should be with you only if absolutely necessary.

5. Don't show up early, arrive on time ... in order to minimize the number of people at the reception.

Also note that, in the “background”, our staff will also be following strict disinfection and sanitary protocols ordered by the governing bodies. If you are curious about these, please ask.
